TURTLE NESTING SEASON IS HERE! The months of May thru October are the prime months for sea turtles to nest along our beaches. KSC and CCAFS have some of the only remaining pristine beaches along the East Coast of Florida. Sea turtles use these beaches in high numbers for nesting. All exterior lighting at KSC and CCAFS, not just that which directly hits the beaches, can be a distraction to these turtles causing disorientation and nest abandonment. Please, take extra measures to ensure all non-essential exterior lighting is turned off. The KSC Exterior Lighting Guidelines can be reviewed on the Environmental Program Branch website at <http://environmental.ksc.nasa.gov/natural/lighting.htm>. If you see any lights that you feel need to be turned off or have any questions, please contact John Shaffer, NASA EPB, at 867-8448. (TA-C3)

JUNE HEALTH EDUCATION & WELLNESS PROGRAM—BIOLOGICAL & CHEMICAL WARFARE AGENTS & INFECTIOUS DISEASE:

The threat of terrorism still exists and the next attack may well come in the form of biological or chemical weapons. It is prudent to learn as much as possible about terrorism, in any form, and be prepared. June's topic will discuss the types of infectious disease and chemical agents that could be used as weapons of mass destruction; ways to develop a disaster plan to protect yourself and your family; and national web-site addresses to obtain more information. Packets will be available at all medical facilities and upon request to Carol Roth, 867-3414, email **Roth-1, Carol** and on the Occupational Medicine website: <http://sgs/sgs/sites/other/chs/occmed/index1.htm>. NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS: Low Carb Diets: The Answer to Weight Loss?? Some popular diets question carbohydrates in a healthful eating plan, stating that they cause an increase in insulin levels, which causes obesity. Still other diets claim that only eating protein is magical, and that combining carbohydrates and protein is harmful. But the facts for weight loss are very simple, and not too glamorous. Weight loss occurs when you burn more calories than you consume. And eating too many calories, whether they are from protein, carbs, or fat, leads to weight gain, and increased insulin levels. You can change calories in one of three ways: eat fewer calories, exercise more, or do a little of both. Source: www.eatright.org; www.mayoclinic.com. Contact: simmoks@kscems.ksc.nasa.gov. (TA-C2)

KSC FITNESS CENTER INTRODUCES MASSAGE THERAPY! Do you need to relieve some stress, but don't feel like working out? Are your muscles sore? Do you need to relax and feel a sense of well-being? INSPECTOR GENERAL: The Office of Criminal Investigations (OCI) is the investigative arm of the NASA Inspector General (IG). The OCI is an independent entity and reports directly to Roberta Gross, the NASA IG, in Washington D.C. The primary mission of this component is to conduct criminal and civil investigations of reported or suspected fraudulent acts by employees, contractors, and others relating to the administration of NASA contracts and programs. Although emphasis is placed on major procurement fraud, (particularly allegations of defective/substandard parts, mischarging, kickbacks, bid rigging, and research fraud), investigations are also conducted of theft, conflict of interest, environmental and hazardous waste violations, health care fraud, and computer related crimes. OCI also provides fraud briefings for Government and contractor employees that are designed to highlight potential risks concerning fraud and related matters. Suspected violations can be reported by calling 867-4714 locally, the toll free Hotline at 1-800-424-9183, or by writing NASA Inspector General, P. O. Box 23089, L'Enfant Plaza Station, Washington, D.C. 20024. The OIG Cyber-Hotline can be accessed at www.hq.nasa.gov/office/oig/hq. (OIG)

OIG: The Office of the Inspector General is the focal point within NASA for conducting audits and investigations to promote economy and efficiency and to prevent and detect fraud and abuse in NASA programs and operations. The OIG receives and investigates complaints or information about inefficiencies, mismanagement, or gross waste of funds; possible violations of law, rules, or regulations by NASA employees, contractors, or others; or substantial and specific danger to the public health and safety. The Inspector General will not disclose the identity of a person who provides such information without that person's permission, unless the Inspector General determines that disclosure is unavoidable during the course of investigation. NASA employees are protected by law from reprisal for making complaints or disclosing information to the Inspector General. At Kennedy Space Center, call: 867-4714, or call toll free: 1-800-424-9183, 24-hour answering service, or write: NASA Inspector General, P.O. Box 23089, L'Enfant Plaza Station, Washington, DC 20024.
